

## Avoid the Summer Slide !!

**“Studies have found that on average students lose approximately 2.6 months of grade level in skills over the Summer months”.**

Source: Center for Summer Learning, John Hopkins University

Our summer programs are designed to give your child an opportunity to **REVIEW and MASTER** math concepts and skills and get a **JUMP START** into the new school year. Students may start any week during **June-July-August**.

(Mathnasium Summer Workouts are available AT **NO ADDITIONAL CHARGE** to all currently enrolled members.)

**(617) 340-3665**

**SAVE \$50** when you register by June 1<sup>st</sup>  
(Coupon Code: EARLYBIRD).

Workout Program	Curriculum Focus - Twelve 1-Hour Sessions <i>(Customized to your child's needs and assessment results)</i>	Grade (in Fall 2011)
<b>Math Readiness</b>	This program is designed to help young students establish the foundation for their “number sense”, developing a positive attitude about Math early.	1 <sup>st</sup> /2nd Grade (\$495)
<b>The Cure for Counting with Fingers</b>	Still counting with your fingers? We’ve got the cure for it. Count, add, and subtract faster, more accurately, and with greater numbers (too many for your fingers and toes).	2 <sup>nd</sup> Grade 3 <sup>rd</sup> Grade (\$495)
<b>Jump Starters</b>	Jump Starters introduce students to the concepts they will face in the upcoming year.	3 <sup>rd</sup> - 6 <sup>th</sup> Grade (\$495)
<b>Pre-Algebra</b>	Reinforce pre-algebra topics: fractions, decimals, percents, variables and relationships - important building blocks for Algebra, a big leap for many students.	6 <sup>th</sup> / 7 <sup>th</sup> Grade (\$495)
<b>Algebra Intro</b>	For rising 8th grade Honors or 9th grade students who will be seeing Algebra I for the first time in the fall. Program includes review of critical concepts and skills necessary for Algebra I.	7 <sup>th</sup> / 8 <sup>th</sup> Grade (\$595)
<b>Algebra Review</b>	For 8th grade or higher who have completed first year Algebra and need a review of the entire course. It would also serve a good review for most students who are planning on taking Algebra II in the fall.	8 <sup>th</sup> Grade and up. \$695

**About Mathnasium Instruction: This is not a group class.** We tailor a personalized and prescriptive learning program for each student. The student works on the program with the help of specially trained Mathnasium teachers who provide instruction - and lots of warm encouragement in a small group setting (max 4 students/instructor).

**Flexible Scheduling:** Because it's not a group class, you can schedule your sessions around your family summer plans. Our Center Summer hours are (Jul 5 – Aug 26):

**Mon, Wed:** 9 am-Noon and 3-6 pm.

**Tues, Thurs:** 9 am-Noon and 3-7 pm      **Friday:** 9 am-Noon

Drop in once a week, or twice a week, make up the next week if you go out of town the previous week... Just get your 12 sessions in by Friday, August 26th.

**Summer Registration Form**

Summer Session: Jul 5th, 2011 through Aug 26th, 2011

## Next year's MATH SCORES

## The MATHNASIUM Method™

### Individualized Curriculum

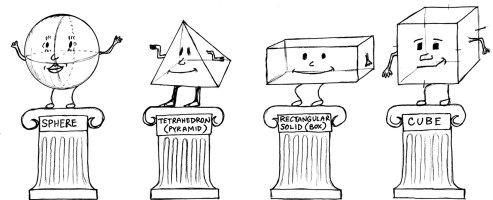

- Custom learning plan tailor-made for each child based on Written and Oral diagnostics.
- We address both past and current math challenges on an individual basis.
- We use proprietary, time-tested curriculum developed over 30 years, which is designed to “make sense” to kids. (Ask us for a quick demonstration!)

### Individualized Instruction

- The Mathnasium program is **not** a group class, each child works on their individualized learning plan based on their strengths and gaps.
- Students work in a casual small group setting – max capacity is 4 students per instructor.
- School homework and tests support.

### Convenient and Affordable

- Flexible schedule – you determine the workout schedule that works for you and your child. Schedule your 12 sessions anytime during our center hours. Come once a week, make it up if you are away, just come 12 times before school starts (by Friday, Aug 26<sup>th</sup>).
- We charge one affordable monthly fee. School year programs start from \$33/session or \$265 a month depending on grade level.
- Summer Package is 12 sessions starting at \$495 **(\$50 early bird discount) before 6/1**

## Quotes from Parents

"Sarah has really loved her experience at Mathnasium. She is always excited to go, and her enthusiasm for math has really exploded. She loves the teachers she works with and her math skills have improved tremendously. Thank you!" *Amy Shapiro, parent of a 4<sup>th</sup> grader at Mason-Rice.*

"We are so pleased with Riley's report card. Math used to be his weakest subject, now it's one of his strongest. Thanks to you and your team, you've really turned him around." — *Dr. L. Steinberg, parent of a 6<sup>th</sup> grader at Baker School, Brookline.*

"I want to let you know that you guys are A+ ! Jack and Erin are still enjoying the classes - no complaints at all and when it is time to go, they get right in the car! Actually, Jack "ran" out the door last week! The sessions always seem to be very productive as the kids tell me how many worksheets they complete. By the end of the school year I noticed an improvement in math for both kids." *Bonnie Carey, parent of 3<sup>rd</sup> and 5<sup>th</sup> graders at Peirce Elementary, W. Newton.*

"Signing my son up at Mathnasium is one of the best things we've ever done for his education. He looks forward to the lessons all week. He loves his homework. In fact, I caught myself in a parenting moment the other day almost saying "if you don't do your chores I won't let you go to Mathnasium this week." Then I realized how lucky I was. Thanks for the great motivation and math skills." -- *Lee McIntyre, parent of a 7<sup>th</sup> grader at Park School, Brookline.*

"I can't believe how fast Drew's time went at Mathnasium! It's been extremely valuable for him, especially identifying the areas that he was deficient in and getting him proficient in those areas." – *Susan Michals, parent of an 8<sup>th</sup> grader at BB&N, Cambridge*

"Adrian's confidence in math has really improved over the last few months. The instructors have been great (younger) male role models for Adrian to look up to. I've been impressed with both of them - really great guys who are patient, easy going, friendly, and academically so strong." *Cathy Lee, parents of a 3<sup>rd</sup> and 5<sup>th</sup> grader at Peirce Elementary, Newton*

"My daughter said she learned much more in her few sessions with Glen than she did all semester long at school." *M. Cote, parent of 11<sup>th</sup> grader at Needham High*

"No question Lydia is enjoying it and has helped her confidence in math greatly. She really enjoys your company too by the way. We also had a conference with her teacher at Mason Rice and got some extremely positive feedback on her recent successes – so it's working for sure." *David Carroll, parent of a 4<sup>th</sup> grader at Mason-Rice.*

"It's been a huge difference. Chris was really struggling with math when I first brought him here. He just brought home his report card with an A in Math! And he actually likes Math now, he loves coming here." *Christine Brooks, parent of a 4<sup>th</sup> grader at Countryside Elem., Newton.*
